

Provincial Consultation of Allied Health

Objectives

Objective 1

To inform the strategic priorities of the AHPS for the next three years

Objective 2

To identify opportunities to strengthen allied health leadership, career development and governance

Objective 3

To support collaborative, team-based models of care that enable full scope of practice, and where appropriate expand scope

Objective 4

To support health education expansion, learning pathways and flexible education/employer models for critical allied health occupations

Objective 5

To understand barriers to recruitment and retention of allied health in publicly funded health care

Objective 6

To access existing infrastructure and policies that support the nursing and physician workforce

Objective 7

To gain consensus on a provincial definition of 'allied health' and enhance recognition of the allied health workforce

Purpose

To complete a provincial consultation that identifies allied health workforce issues and opportunities related to seven core themes. This will inform a 3-year Provincial AH Strategic Plan that will form the basis of work undertaken by the Allied Health Policy Secretariat.

Core Themes
