

# Help make BC's health care system better!

---

We are a community of patients, families and caregivers working together with Health Care Partners to improve BC's health care system.

We connect health care and patient partners who are seeking to engage the patient voice in their efforts to improve quality of care.

## We'll support you.

You'll receive training, education, and on-going support to help you work together. Our goal is to make working together the easy choice.

---

"Patient partner's feedback has reinforced the important relationships between patients and providers for emergency care. Our partnership with PVN has brought many new opportunities to adjust how health care and patient partners can work together."

- Lisa Dyck, Manager – BC Emergency Medicine Network

"Patient Voices Network has provided Rylee and me the ability to channel our experience into positive change for others. Our voice in decision making, planning and partnerships for mental health care is having a profound impact on our healing process."

- Terry McKinlay, PVN Member

**Patient  
Voices  
Network**

ADMINISTERED BY  
BC PATIENT SAFETY & QUALITY COUNCIL

## We are stronger when we work together.

Each opportunity is unique and designed to improve health care in BC. We believe:

- Services improve when they reflect what matters to patients, families, and caregivers.
- Shared understanding and collective action make for better services.
