Learning Objectives:

- **Latest Updates on Vaccinations in 2024:** Gain insights into the most current information on influenza, pneumococcal, RSV, and COVID vaccines.
- **Addressing Vaccine Misinformation:** We will tackle common misconceptions surrounding vaccines, helping to clarify confusing narratives that may deter individuals from getting vaccinated.
- **Understanding Risks for Individuals with Asthma:** Learn about the specific risks that asthma patients face, including equity- priority populations and how vaccinations can significantly reduce hospitalizations and prevent severe outcomes.
- **Practical Tips for Vaccination:** Discover culturally safe strategies for accessing vaccinations and making informed decisions about vaccine options

Presenter: Dr. Samir Gupta, Respiriologist, St. Michael's Hospital

Moderator: Jeff Beach, President & CEO, Asthma Canada

About the organization: Asthma Canada is the only national healthcare charity dedicated to improving the quality of life for people living with asthma and respiratory allergies.

This webinar is funded by Public Health Agency of Canada as part of the Immunization Partnership Fund.
